

Due to limited and restricted parking in Avian Place you may find it necessary for your guests to park in the clubhouse parking lot. All vehicles parked at the clubhouse must display a resident sticker or visitor parking pass. Avian Place resident stickers are green and must be permanently attached to the front windshield of your vehicle. These stickers are available free of charge from the clubhouse office. Visitor parking passes can be obtained from the clubhouse office during regular business hours or you can print out the parking pass below for use by your guest.

Visitor parking passes must be completely filled out and placed on the dashboard of the vehicle so it is clearly visible through the front windshield. Vehicles without a resident sticker or properly completed visitor's pass may be towed without warning.

When completing the visitor parking pass be sure to include all the required information. The dates your guest will be parking in the clubhouse lot are required and can be no longer than seven (7) days. If your guest will be staying longer than seven (7) days a new parking pass must be requested from the office or printed out and completed by the resident.
